### About the seminar:

The Incredible Years Programme has two long-range goals. The first goal is to develop comprehensive treatment programs for young children with early onset conduct problems. The second goal is the development of cost-effective, community-based, universal prevention programs that all families and teachers of young children can use to promote social competence and to prevent children from developing conduct problems in the first place.

The purpose of the Programme is to prevent delinquency, drug abuse, and violence.

The Incredible Years Programme was introduced in Russia in 2004 under the JWGHS Co-operation Programme, and preliminary results from Karelia and Murmansk regions are very positive. As there have been request for more information about The Incredible Years in Komi republic, a seminar on this topic will be held back-to-back with the JWGHS CYAR Steering Committee meeting in Syktyvkar.
