

Government's key projects for health and wellbeing

Pasi Korhonen
Director of International Affairs
6.10.2016

**Government Programme:
In 2025, Finland is an
inventive, caring and safe
country where we all can
feel important. Our
society is based on trust.**

The Government's objective: Finland is on a path of sustainable growth

Finland is safe
Finland is inventive
Finland's economy is sustainable
Finland as part of Europe

Situational awareness

Employment and competitiveness

Knowledge and education

Wellbeing and health

Bioeconomy and clean solutions

Digitalisation, experimentation and deregulation

Vision:
Suomi 2025
– built up together

The Government's key projects: Activities to a new level with a single input

Strategic priority: Wellbeing and health

Ten-year objective:

- People in Finland are healthier and in better control of their lives.
- They feel that they can have an influence, make choices and take responsibility.
- Social welfare and health care focus on prevention, ensuring that personnel are coping well and that the clinical pathway is smooth and information systems work well.
- Through reform, joint resources can be used to foster better health and wellbeing.

Key projects of the Ministry of Social Affairs and Health

Enhanced health and wellbeing

Services to be based on customer needs

Health and wellbeing will be fostered and inequalities reduced

Implementation of the Programme to address child and family services

Career opportunities for people with partial work ability

Home care for older people will be developed and informal care enhanced in all age groups

EUR
130
million

Key projects of the Ministry of Social Affairs and Health

1. Services to be based on customer needs

- Customer-oriented service chain across administrative boundaries and people's involvement
- People will have opportunities to make their own choices
- Emphasis on early support and preventive methods
- The use of electronic services enhanced
- The potential of health technology will be exploited

2. Promotion of Health and wellbeing and reducing inequalities

- Public health, active and healthy lifestyles will be promoted
- Good practices and operating models will be implemented in cooperation with various organisations
- A national programme to promote mental health
- A comprehensive reform of rehabilitation systems

Key projects of the Ministry of Social Affairs and Health

3. Implementation of programme to address child and family services

- Reorganising the child and family services systems
- The reform will be based on the diversity of family life and on the needs of children and families
- Services will be organised across administrative boundaries
- Parenthood and low threshold services will be enhanced

4. Home care for older people will be developed and informal care enhanced in all age groups

- Reorganising the service system for older people
- More equal, better coordinated and cost-effective services for older people and informal carers
- Increasing home care and developing different kinds of housing
- Supporting informal carers

Key projects of the Ministry of Social Affairs and Health

5. Career opportunities for people with partial work ability

- The employment opportunities of people with disabilities and people with partial work ability on the open labour market will be promoted
- The know-how of those active in service systems and workplaces will be enhanced with regard to the services, methods and benefits available
- The entrepreneurial prospects of people with disabilities will be improved
- Incentive traps relating to disability pension and earned income will be abolished

+ Youth guarantee

- Cooperation between the public, private and third sectors in efforts to support young people will be intensified
- MSAH partly responsible: strengthening social welfare and health care services
