10.30 Closing of the meeting and departure

Hello everyone!

This meeting will differ a bit from the earlier Barents Youth Stakeholders Meetings as we will focus on the good discussions, instead of using different exercises to work through the needs of the different structures.

My role during the days will be a bit different in the way that I will take notes all day through and try to conclude the outcome of our discussions, and also take an active part.

If you wish for an outcome from this meeting that is not included in this programme, please let me know and I will see if we can make room for it in the agenda.

See you soon!
